# Who we are?

SourceTrace's advanced technology platform provides comprehensive solutions to manage all aspects of the agricultural value chain. Asyagro is a global leader in providing digital solutions to agriculture and food businesses. We enable full visibility into the agricultural and food value chain, with touchpoints across every stage – from farm to retail. SourceTrace is all you need for your complete value chain management. The latest in best farming apps and food supply chain innovation is right here. The Asyagro Token is a stable coin that is used for trading and Buying service from different Platforms.

The Future: We as human society can understand the changing business paradigm and importance of digital revolution in everyday life. To avoid the future shock means, adopt changes faster than before and to gear up business with increasing acceleration of technological changes. Asyagro platform offer special discounts for using Asyagro token holders. "

# Vision of Asyagro

The farmers have been enthusiastic about adopting technologies that make sense and provide tangible benefits. Blockchain technology can be a powerful tool to address major issues in agriculture. The main challenge for blockchain and Agtech, in general, is connecting the technology with feasible business models and compelling instances. Blockchain technology can help solve most of these problems by creating an environment that allows trust to be built between producers and consumers. In addition, transparency can be significantly improved by providing specific product information on the blockchain.

## **Our Vision is to :**

- To enable retailers to accept digital assets for goods and services, like Farmers get full benefit of insurance plan.
- To create an ecosystem where different solutions can emerge from a social perspective, including collaborative applications.
- We are providing the atmosphere where the technology is used to allocate authentic ownership of assets in a Asyagro.
- To ensure users own personal data, which will significantly reduce the current data leaks via centralized financial systems.
- To make Blockchain technology and cryptocurrency accessible by the real tech, even if the majority don't know how it works.

# Our Mission

Asyagro Token is conceptualized as a Smart technologies anchored ecosystem aimed at solving the current problems associated with current conventional crypto trading & transaction processing services, including the delay in payment processing, fraudulent transactions, and expensive transactions costs. Further research into the Smart technologies escrows ecosystems revealed that current financial systems benefit from the Bep20 technology, which can solve the underlying challenges. Every transaction on Asyagro is registered on our blockchain to ensure unrivaled security and prove the ownership and origin of each item. Our Mission is to foster partnerships and strategic relationships with local stakeholders as well as global participants. Our current partnerships include Reimagine farmer Initiative (RGI) along with the Recityzen project.

Technological advancements in the means of production are the driving force behind the changes in the prevailing system of socioeconomic relations. Feudalism was transformed into capitalism as a result of such advancements. While man obtained physical freedom, the financial freedom remained under the control of the centralized authority. A deep level of collaboration is required to attain the next level of productivity provided by new technological advancements.

# Holding of Asyagro

As a less resource-intensive solution to mining, holding is used. It entails storing funds in a cryptocurrency wallet to finance a blockchain network's protection and operations. Holding, simply put, is the process of securing cryptocurrencies to obtain incentives. To maximize the rewards, investors can hold their cryptocurrency by validating Asyagro Token and holding their tokens on the smart exchange. The more the investors hold on to the exchange and invest in tokens, the more they will be rewarded.

- 70% of the Asyagro will be accumulated and invested in third party top DAOs in existence. Our intention is to make our project invest in bit DAOs which is the biggest DAOs in existence.
- Last but not least, asyagro holders will have full commercial usage rights over their SteelTown NFT, which can be held, sold or transferred at their own will.

Holders can earn incentives by holding and controlling their digital wealth. Passive income for the beneficiary is the reward of holding

# Benefits of Holding

It is advantageous in cryptocurrency as it generates rewards by holding the coin on any exchange and generating passive income. When an investor holds a coin and staking the pool, it is the easiest method to do, in a decentralized world. There is very sufficient energy consumption and stumpy probabilities of risks while staking than any crypto mining. Tre is here for you.

## **Passive Income:**

Stake holders earn incentives by holding and controlling their digital wealth. Passive income for the beneficiary is the reward of staking.

## **More Cost Effective:**

Proof of stake blockchains are always inexpensive and less energy consuming platforms with no particular and expensive hardware requirements. Unlike proof of work chains, PoS is more cost-effective and ecofriendly. So, the stakes can earn more passive income by using Smart Liquidity Token.

# Benefits of Holding

## **Scalability:**

In the Blockchain world, scalability is a concept that is often used. It refers to a computational process's potential to be used or generated in a variability of ways. Proof of stake protocols, as shown by SLT higher transaction outputs and lower fees, make for greater scalability.

## **Echo Friendlier:**

As Proof of stake blockchains are less energy consumers, they are more environment friendly. Thus, they have a lower carbon footprint and have little or no environmental effects.

## **Highly Secured with the help of Smart Contract:**

The biggest issue in the modern world is security and privacy, and Asyagro provides a swift and stable portal that is backed by the SLT contract, making him superior to others. SLT contract is offering a highly secure and fast platform to the users for staking crypto.

# Why Choose Asyagro?

## **Open for global participants:**

Asyagro facilitates the transaction and brings them closer to a wider audience. An added benefit of Asyagro use is that it's completely decentralized, so p2p trading can be done freely across borders. The use of technology will facilitate a financial revolution that will leave everyone more financially connected, empowered, and enabled. Asyagro has no border so these can be used no matter where you are located globally. This also has a huge effect on international payment fees.

## **The efficiency of payment transactions:**

Standard transfers and foreign purchases typically involve fees and exchange costs. Since SLT transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization requirements and wait periods.

# Why Choose Asyagro?

## **Fast and secure:**

Asyagro is different because of its potential features of security, privacy, transparency, blockchain technology, Farming, lending, P2P trading, and NFTs market place. We have created a platform to connect people.

## **Strong security:**

Built and maintained to the highest security practices to ensure our users and their funds are always protected.

Asyagro provides private and secure proprietary technology applications (app), decentralized exchange with its encrypted communication platform.

## **Free from corporate and government interference:**

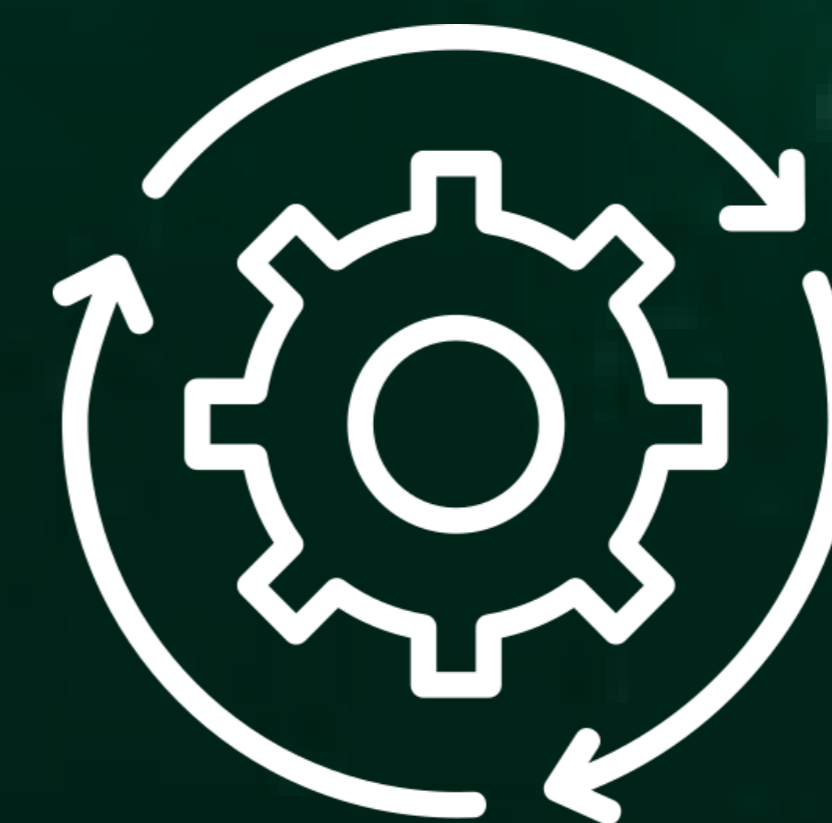

Our Coin transactions have no intermediary institutions or government involvement, the costs of transacting are kept very low. Additionally, any transfer happens very quickly, eliminating the inconvenience of typical authorization and waiting period requirements.

# Benefits of Using Asyagro

## Low Transaction Fees:

Most of the people feel this pain. But the use of Asyagro TOKEN takes this pain away. It means Asyagro TOKEN is the best cryptocurrency to invest in. Its users do not have to worry about expensive transaction fee and chargeback.

## Instant Operations:

Well, it is the best solution for ultra-fast contactless international transactions. Like said earlier, it is based on the Metaverse Smart Chain. As a result, all transactions get completed within 15 seconds time only. This is why Asyagro TOKEN is fast becoming the best cryptocurrency to invest in.

## Strong Security:

SteelTown TOKEN makes use of several safety measures to make your experience positive. The list of those safety measures includes but is not limited to cryptography, no data saving on our servers, AVS, visual cryptograms and execution of measures to prevent search attacks to offer high-level of security and reliability.

## Easy Accessibility:

Paying with cryptocurrency is simple and convenient. Digital payments using smartphones instead of a credit card is awfully convenient. This is where the Asyagro TOKEN proves to be the best cryptocurrency to invest in. Meaning, you can make payments for anything using Asyagro TOKEN.

# Road Map

## Q1 2021

1. Make Market Place
2. Launch IOT Bae System For Farmers
3. Defi Inflation

## Q2 2021

1. Team Expansion
2. Launch Staking Pool
3. Launch P2E Virtual Platform

## Q1 2022

1. Team Expansion
2. Improved Asy Utility
3. Collaboration With Farmer And Agricultural Industry

## Q2 2022

1. Develop 3rd Generation Of Blockchain
2. New Technology In Acceptance Method
3. Web 3.0

## Q1 2023

1. Fee Improvements
2. CashAddr
3. Best Money

## Q2 2023

1. Sighash
2. Pre-Consensus
3. Fractional Satoshis
